

CERAMIT CR 116 VEL

Stable, velour-backed abrasive paper for high operational demands

Product Benefits

- High stock removal rates especially on stainless steel and high-alloyed steel
- Very long tool life on hard wood and composites
- Low grinding temperatures
- Uniform surface pattern without staining

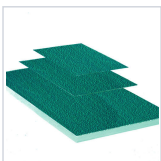

Applications

- Grinding edges and surfaces of composites
- Initial, intermediate and fine sanding of parquet floors
- Initial, intermediate sanding of high alloyed stainless steel on angle- and random orbital grinders

Product Structure

Type	11627
Grain	Ceramic grain
Bonding	Resin
Backing	F-weight paper
Coating	closed
Grit range	+ 60 - + 180

Forms of Delivery

Strips

Discs

Metal

Wood

Composite

Glass and
Ceramics
